Project Executive  
American Bridge/Fluor Enterprises, a JV  
375 Burma Road  
Oakland, CA 94607

Dear Michael Flowers,

**Authority to Proceed - CCO 67 - Shipping Tower Base Plate Template Parts**

On January 23, 2008 ABF, Caltrans and Kiewit/FCI/Manson representatives met to transfer four (4) field templates representing the eight dowels which were installed on the T1 foundation after the fabrication and installation of the T1 footing box. The field templates, as described in the attached sheets, will be used to locate the holes described on the "Anchor Bolt Template Final Arrangement" sheet, which is also attached for reference.

In accordance with the provisions of Section 4-1.03, "Changes," of the Standard Specifications, you are hereby authorized to proceed with shipping of field templates to ZPMC in China for incorporation into the steel template previously provided by the Department. If possible, we would like to have these templates shipped with the shear leg crane barge to help reduce the cost of shipping. The cost of shipping the field templates as well as any change in character adjustment relative to these additional templates will be compensated under forthcoming Contract Change Order (CCO) No. 67.

Please do not hesitate to call this office should you have any questions or comments or wish to meet and discuss this item.

Sincerely,

A handwritten signature in blue ink that reads 'Gary Pursell'.

GARY PURSELL  
Resident Engineer
